Please Read The Following Information and Sign Where Indicated

I understand that the massage/bodywork I receive is provided for the basic purpose of relaxation and relief of muscular tension. There are certain medical conditions in which receiving a massage may not be appropriate. In those cases a referral from a physician may be required prior to services being provided. Massage/bodywork is not a substitute for medical attention received by a medical specialist. If I experience any pain or discomfort during the session, I will immediately inform the therapist so that the pressure/strokes may be adjusted. In addition, if I am uncomfortable for any reason, I may ask that the session be stopped immediately.

Draping will always be used during massage/bodywork sessions. No breast massage shall be done without written consent of the client and therapist. Any illicit or sexually suggestive remarks or advances made by me (the client) will result in the immediate termination of the session.
